THE DONALD DUCK PRINCIPLE

90' (GER, FRE, ENG subs)

Failure is not all bad as long you have the ability to overcome!

Donald Duck is one of the most popular cartoons in the world. But he can't fly or save the world and doesn't exactly have the best of luck. Why is he then so identifiable? Is he popular because he always manages to push pass disappointments, work through catastrophes and walk head first into disasters? His attitude to life's letdowns is rather comforting. He shows us that failure is not all bad and that being able to rally after a disappointment is the beauty of human nature. For this reason and many more, we are taking a closer look at the character and his adventures.
