MEN AND MACHINES (SEASON 2)

8 x 45' (GER, 2 Eps ENG Subs)

Welcome back to the second season of *Men & Machines*, presenting the most amazing tools of an industry: Fire fighting, agriculture, port, mining, and transportation.

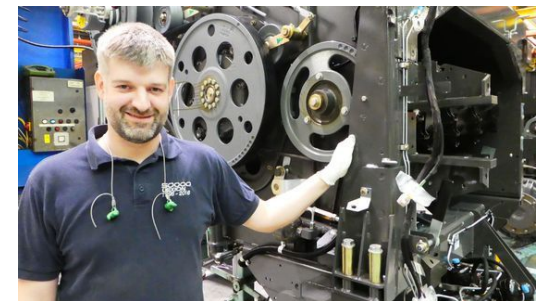

Experience special machines and their guides in concentrated use. In addition, each episode also takes a look at the production halls of these machines. What do the men have to bring if they want to operate these machines safely and how are such mega-aggregates manufactured? German mechanical engineering is world-famous. Men & Machines shows why.

See what happens in Season 1.
