BOSNIA & HERZEGOVINA

2 × 52' (ENG), 2 × 45' (GER)

A country wild and unknown – right in the heart of Europe. With cascading waterfalls, untouched river landscapes and rugged mountain ranges.

Bosnia and Herzegovina enchants with barren beauty in the karstic south and untouched nature in the densely wooded north. Rare and endangered animals roam the valleys and mountains of the Perućica primeval forest. The untouched nature offers a pristine habitat and is testament to the impressive ecological diversity. Why are there wild mustangs on the Cincar Mountain? How were the waterfalls along the Trebižat River formed? And where can one find stingrays and scorpion fish in Neum Bay?

Original Title: Bosnien und Herzegowina
