FROM CUBS TO KINGS

50' (ENG, GER)

Thousands of miles from their native home of Africa, a pair of tiny, new-born lion cubs are posing for tourist snapshots.

Alongside Kevin Richardson, a team of dedicated veterinarians, scientists, rangers and volunteers work to ensure the cubs make it to adulthood – to one day experience a life of freedom in the land from which they came.

From a miserable existence as a tourist sideshow in Spain to the wild plains of Africa – 'From Cubs to Kings' follows two cubs on their journey to a better future.
