THE ALPS: WILD MOUNTAINS— EXTREME LIVES

2 x 52', 90' (ENG, GER, FRE)

The Alps – wild mountains, extreme lives, but also a magical world.

This majestic mountain range connects eight countries and reaches heights of up to 4 000 metres above sea level. The so-called “Roof of Europe” continues to fascinate – across the continent and around the world. The incredible diversity of landscapes, flora and fauna makes the Alps a unique natural treasure at the heart of Europe.

Enjoy the Alps in spring and summertime as newborn animals grow up to face the coming brutal winter. Experience the hostile and bitter cold ecosystems of the Alps, shaped by snow blizzards and avalanches.
