

NATURE . WILDLIFE

REASONS TO LOVE

50' (ENG, GER)

Too many legs? Feathers? Tentacles as arms? Behold, there's more to nature's greatest than fluffy cuteness!

This fast-paced documentary covers three major topics found over and over again in the natural world: family ties, genius and environmental impact. We experience the many reasons to love the feathery, the slimy, and the apparently dangerous – and draw attention to the fact that we might need to rethink our general perception of the good, the bad, and the ugly of the natural world.
