MY HOUSE IS A BOAT

5 x 50' (GER, 1 Ep ENG subs)

Where there's water, there's houseboats. The new lifestyle is growing in almost every trendy city around the globe.

Houseboats have always been associated with old shellbacks and freaks. Today this has changed - more and more young families and working singles want to spent their lives on the water and drop anchor wherever they want. This new living concept is finding more and more followers all over the world. In addition, the design possibilities of houseboats are infinite. From round to square, made of wood, glass or steel, a houseboat leaves all possibilities open.
