## AT OUR NEIGHBOUR'S TABLE

143 x 30' (ENG, GER, FRE, ENG subs) - long running series

**Find out what cooking means in different cultures.**

Feasting in Lyon, the gourmet capital of France, learning about the saffron cultivation in Iran or visiting a market in Moldova, we grant access to all the local hot spots and share our knowledge about the preparation of typical regional dishes.

*At Our Neighbour's Table* offers the culinary treasures of the people who know it best: farmers, winegrowers, chefs, housewives, fishermen and many more. We visit people in different regions and accompany them through their everyday life. The art of cooking is sensual and that's why we show you regional food at its best and slow food lived as it should be. In addition to the preparation of their typical regional dishes, we take a look at the production or purchase of the ingredients. Find out what cooking means in the different cultures and regions of Europe and the rest of the world.
