This documentary describes the still legal industry of lion-killing in South Africa and delves into the work of the animal preservationists of Lionsrock. Lionsrock, which was created as refuge to these big cats, is led by the global animal protection organization Four Paws. The animals that take refuge in this sanctuary have usually escaped captivity in zoos, circuses or private holdings, where they have lived in terrible conditions. The Bavarian Motor Works (BMW) started out in as a small producer of aircraft engines. Since then, the company's 100-year history has seen technological innovations, racing victories and also severe crises. The documentary shows exclusive films and documents from the founding years through to the present day – including the story of Elvis Presley's BMW, which has never before been shown.

With his strength, determination and the camera as eager companions, Alwe show just what it takes to make it to the finish line. The *Tour de Tirol* is a unique race of high standards with the beautiful mountain scenery of the Austrian Alps as its backdrop. We knew it would be hard, but we did not know just HOW hard it was going to be.

Dubbed 'The Mountain God', the Citadel stands at a stunning 3,000m in one of the remaining untouched corners of the Great Alaskan Range: The Neacola Mountains, which are largely unexplored due to their typically poor conditions and remote location. Matt Helliker and Jon Bracey aim to make the first ascent up the extraordinary 1,200m long northwest ridge. We take a front seat ride and are with them on every step of the way through all the hardships and struggles, disappointments and hopes.
